

Changing Your Survey Theme

Step 1: Navigate to the Survey

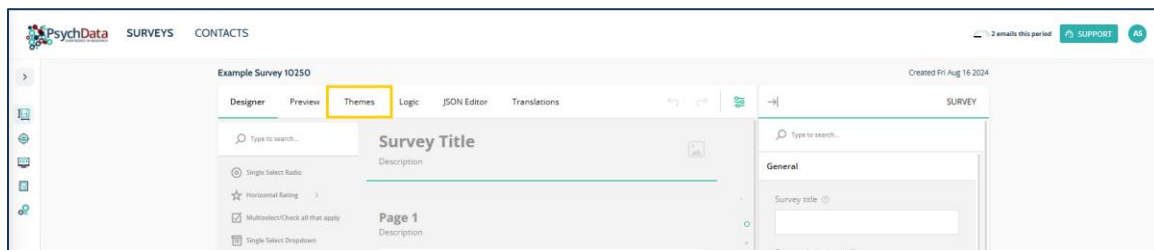

You can navigate to the Surveys Page by clicking Survey icon at the top of the webpage.

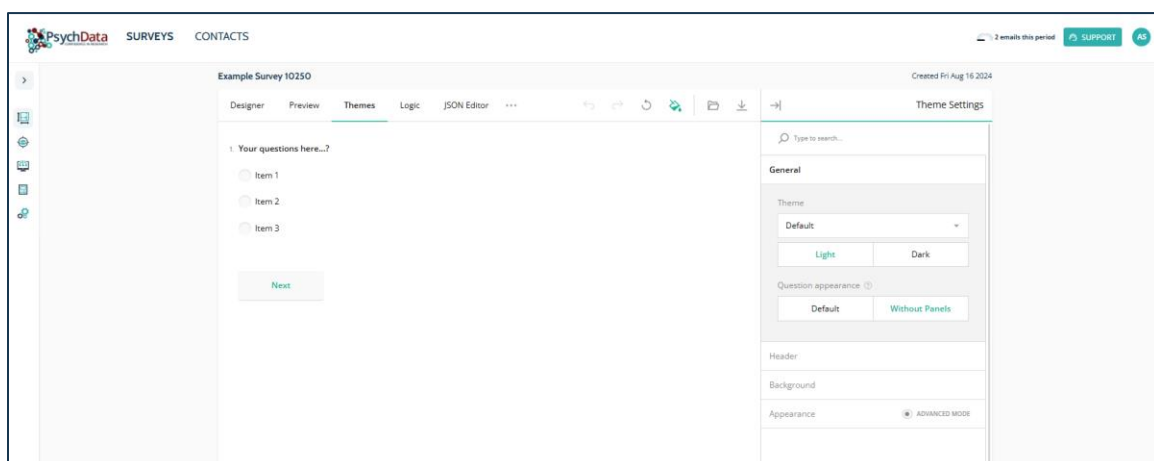

This will redirect you to a list of your surveys. Find your survey in the list.

Step 2: Navigate to the Theme Page

You'll need to go to the "Theme" page by clicking the "Themes" button in the banner at the top of the survey, indicated below.

This will take you to the "Themes" page.

If you have the Table of Contents, or TOC, visible there might be a panel visible on the left-hand side of the page lists the pages of your survey by name. From this panel, you can toggle between the

pages. (To activate this setting, this can be turned on in Survey Settings under “Navigation.” See steps below.)

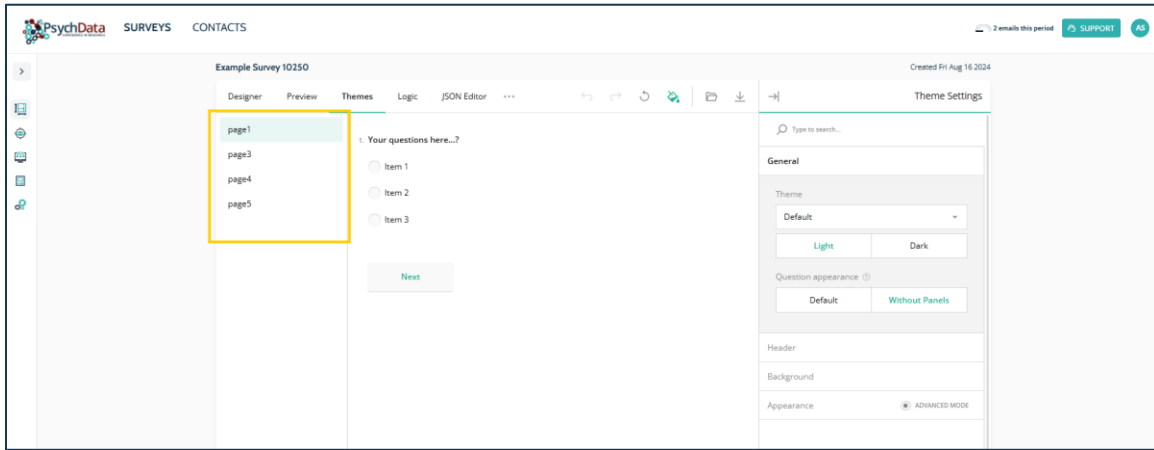

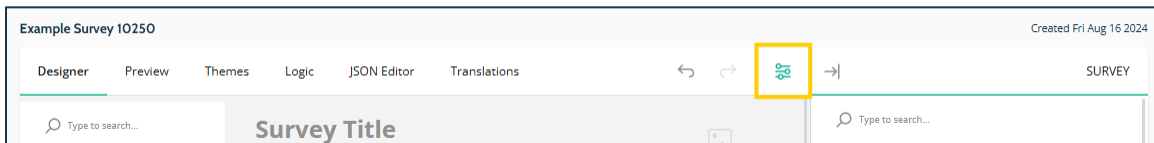

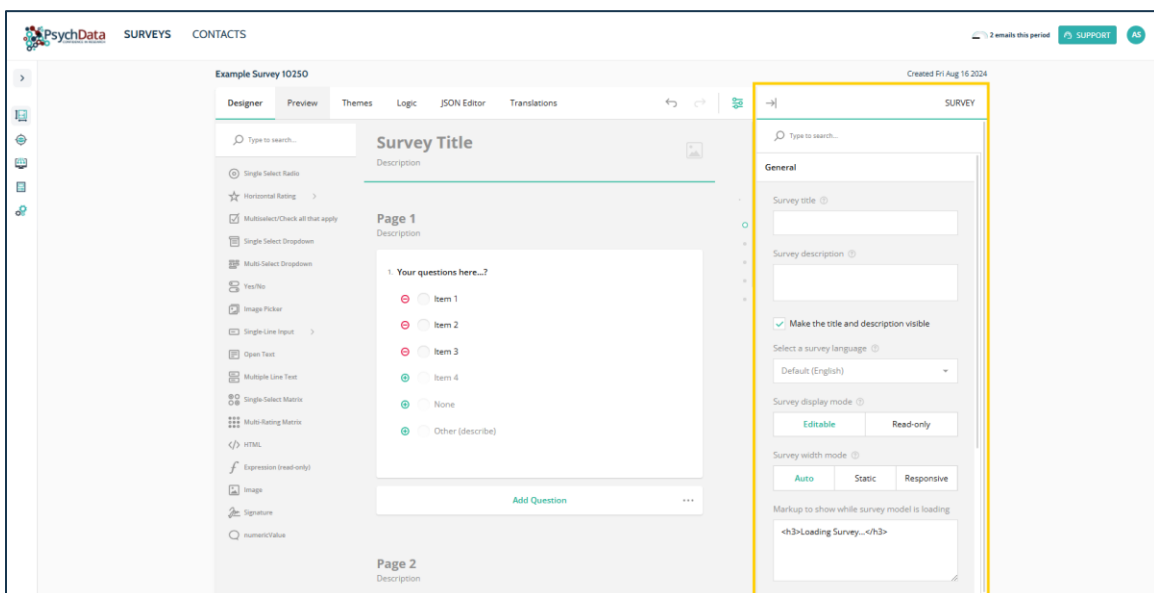

Table of Contents

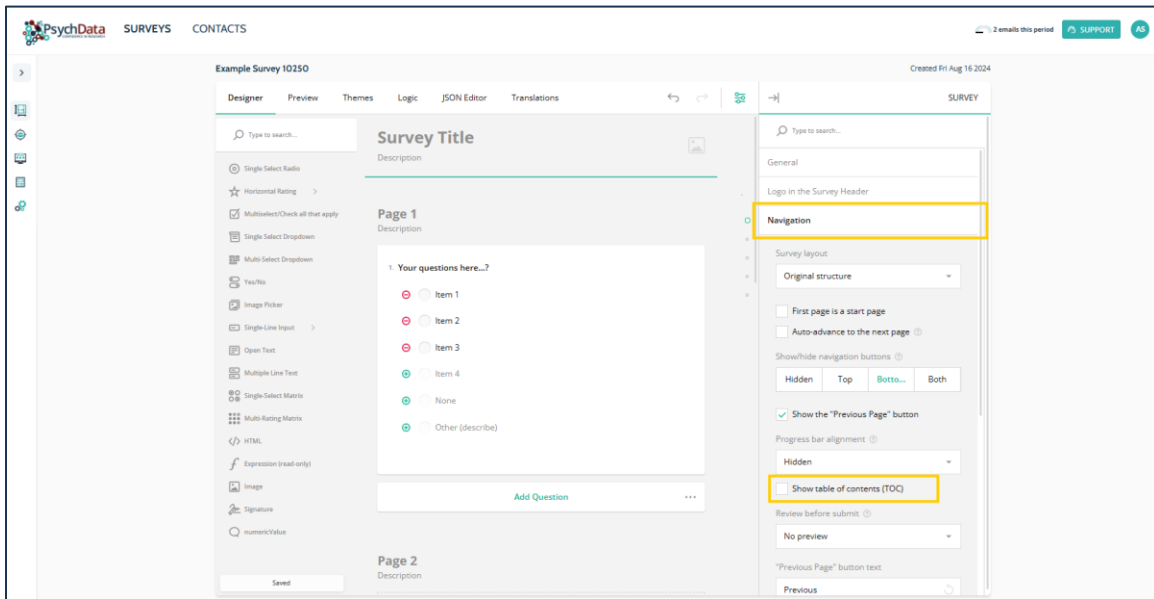

“Survey Settings,” This panel is only visible if “Table of Contents, or “TOC,” is activated in “Survey Settings.” You can access these settings by clicking the “Survey Settings” icon at the top of the design page, pictured below.

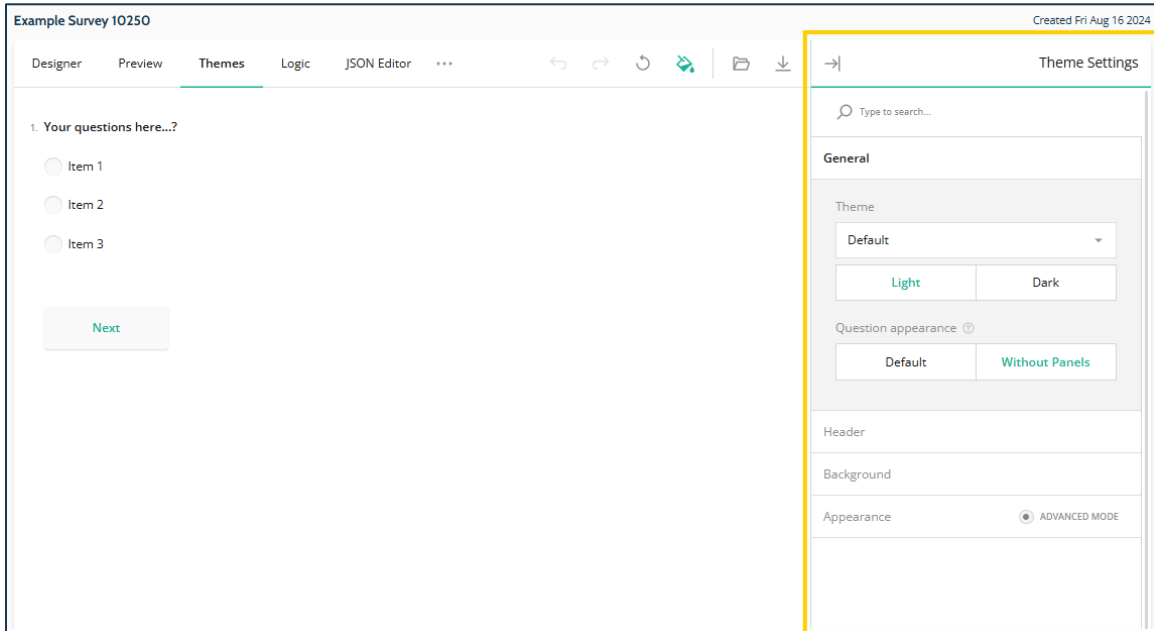

The sidebar will now show the options for survey settings, pictured below.

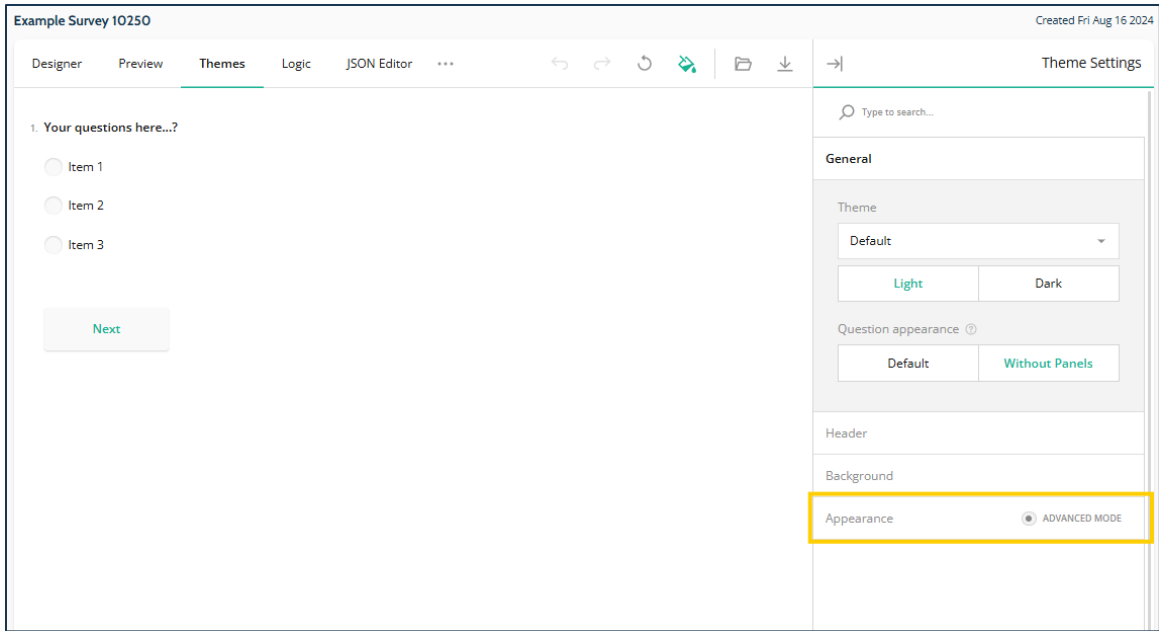

Under “Navigation,” there is a checkbox next to “Show table of contents (TOC).” If you select this checkbox, the table of contents will now be visible, both in the survey preview and in the “Theme” page.

On the “Theme” page, use the panel on the right-hand side of the page to make your adjustments to the theme.

If you prefer to make more detailed updates, you can click “Advanced Mode.”

This will open up more options that you can adjust.
